

DISPERSING THE DOWIEITES.

Mayor of Evanston, Ill., Ordered
Hose Turned on Them.

MANY HURT IN THE MELEE.

When They Reached the Courtroom
They Broke Out Into Song—
Put Under Bonds.

Chicago, July 11.—Corporation Counsel Paden of Evanston, upon whose advice Mayor Patten acted when he directed the hose be turned upon the Dowieites, said:

"The Dowieites were arrested not because they came here to preach, but because they blocked one of the streets with their meeting and refused to move on when told to do so. They clearly violated a city ordinance."

Following is a list of those seriously hurt in the melee:

Overseer J. G. Speicher, cut on shoulder.
W. O. Demius, head cut.
Elizabeth Van Horn, back injured.
B. F. Morris, cut over eye.
Caroline Hartman, cut over eye and shoulder sprained.
E. A. Graves, face cut.
C. C. Kibby, cut about head.
Norris Van Horn, badly hurt from blows on head and body.
Mrs. Jennie Plank, back and shoulders hurt.

Many others were also more or less hurt. When the Dowieites were being arrested by the police, reached the courtroom, they broke out into song in spite of their plight and continued shouting their exhortations so that those who had collected on the outside could hear them.

Overseers Piper and Speicher were put under bonds to insure their appearance July 17 before Justice Ely to answer charges of disorderly conduct and refusing to clear the streets.

Chief of Police Knight guarded the march to the depot. Before the train pulled out the crowd again became boisterous and missiles were thrown, but Chief Knight saved the Dowieites from further harm.

CHINESE TROOPS BEATEN.

Defeated by Allied Villagers Near
Pao Ting Fu.

New York, July 11.—A dispatch from Peking says: The imperial troops under Gen. Lu Pen Yuen have been defeated by the allied villagers society at Ateichou, forty miles southeast of Pao Ting Fu. The magistrate of the district has arrived in Peking and has asked Li Hung Chang to dispatch a thousand reinforcements under Col. Chiang from Lechien Fu, where there are 2,000 Shan Tung troops waiting the permission of the allies to come to Peking.

The French, who stopped these troops at Lechien Fu some weeks ago, have now agreed that they can enter any of the districts in the province of Chihli.

The Hyde Family Incorporates.

New York, July 11.—The Hyde family of Plainfield, N. J., has incorporated itself. Hereafter the \$2,000,000 estate left by Charles Hyde will be known as the Union Company Investment company, with his widow, his four sons and his daughter as the stockholders. There will be a paid up capital of \$300,000, the wife owning 565 shares and the five children 487 shares each, each worth \$100.

Mr. Hyde died on June 12 last. He bequeathed his large estate to his widow, Elizabeth Keppeler Hyde, his four sons, Dorsey W. Hyde, Francis D. Lacy Hyde, Lewis K. Hyde and Charles Hyde, Jr., and his only daughter, Miss Edith Hyde.

HIGH PRICES FOR PAINTINGS.

American Prosperity Influences Them
in London.

New York, July 11.—According to the London correspondent of the Tribune the prices obtained at Christies, London, this year, have been higher for furniture, paintings, engravings and jewels than have ever before been known, and the results are attributed partly to American prosperity. Dealers are becoming speculative when millionaires are constantly crossing the Atlantic and picking up everything in sight.

STEEL RAIL POOL.

It Formally Agrees Upon \$28 a Ton
for the Coming Year.

New York, July 11.—The Herald says: Steel rail manufacturers forming what is known to the trade as the steel rail pool have formally agreed upon \$28 a ton as the price which will be asked for the coming year. This price is \$2 a ton higher than that agreed upon last fall, when the pool price meeting last fall, when the pool price was announced. Since May 1, however, a new schedule went into effect, and prices were advanced from \$26 a ton to \$28 a ton. The new price list for next year for standard section rails is therefore the same as that which has prevailed for the last two months.

It is understood that negotiations have been carried on for several days in a quiet manner by ex-Judge Gary, chairman of the United States Steel corporation, and President Schwab of the same company with Pennsylvania railroad officials and the result is that the pool price of \$28 a ton is made. Much importance is attached to the fact that the price, \$28 a ton, will be maintained for next year's business. It is considered the best evidence that the big steel trust considers that the prosperous condition in the steel and iron business will continue for at least a year.

Prices of steel billets, which have been marketed abroad in the last month, will be maintained now that the steel rail pool has announced its determination to sell rails next year at the same figures which now prevail.

ARGENTINE DEBT BILL.

In View of Situation Its Passage
Will Not Be Insisted on Now.

New York, July 11.—The Argentine government, a Buenos Ayres dispatch to the Herald says, has sent a message to the congress saying that while it cannot withdraw the bill for the unfication of the public debt, because the measure has been passed by the senate in view of the situation in the country, the administration does not insist upon the passage of the bill and requests the chamber not to support it. In accordance with the wishes of the government, the chamber of deputies dropped the bill, which disposes of it finally.

President Roca has appointed Senator Marco Avellaneda, minister of finance, Regor Avellaneda, who is the president

of the chamber of deputies, accepted the portfolio. He opposed the financial bill.

The minister of agriculture, Senor Esquivel Ramon Mejia has resigned because of the troubles over the financial measure.

SPRAYING VS GRASSHOPPERS.

A "News" Correspondent Who Has No
Use for Either.

To the Editor:
Union, Utah, July 10.—It is not very often I try to pose before the public as a writer, but when I do I like to say something, and what I want to speak about this time is the very imminent danger we are now in from the threatened destruction of our lucern crops from grasshoppers. For several years past the destructive insects have been increasing at an alarming rate especially in our immediate neighborhood, and this season they will practically destroy the entire second crop, while the first is very light.

The state is spending thousands of dollars in endeavoring to save our fruit, investigating the San Jose Scale and other insects of that class, but so far as I can learn nothing is being done to save our lucern. There are thousands of people in this state who have no faith in the spraying business excepting that it has helped to kill the bee and honey business, and thousands of young chickens, turkeys, etc., which it is no use denying, and while the fruit inspectors (?) are going their rounds, and the deputies drawing their salaries, which I am not blaming them for, there are thousands and tens of thousands of fruit trees, young and old, which have never had a glimpse of a fruit inspector, let alone a sight of a sprayer, and in my humble opinion it is not necessary that they should.

I was consulting with Dr. August Taucher a few weeks ago, in regard to the fruit destroying insects and he told me, and I believe his statement was true, that the early warm weather this spring, followed by severe frost, had hatched and destroyed more of the pests that hurt the fruit than any amount of spraying could do.

But the frost does not appear to affect the grasshoppers. They do not hatch out till all danger of frost is over, the drying winds cannot drive them away.

They have made a stubborn stand, and we'll have to take a hand.

And now putting rhyming to one side, I sincerely believe that if the state or county authorities could find a way of combatting this destructive insect, the means would be put to much better use than in vainly trying to convert unbelievers to the doctrine of spraying to kill something they haven't got, just because the "fad" is popular among some people. If we do not get rid of the grasshoppers there will be no fruit trees for the inspectors to inspect. I expect.

SCHOOL TEACHERS CHOSEN.

Seventeen Selected by the Committee—
Mrs. W. C. Jennings Employed.

At the meeting of the committee on teachers and school work of the board of education held yesterday afternoon seventeen new teachers were employed and Mrs. W. C. Jennings was retained as supervisor of music and Mrs. Franc R. Elliott of drawing, each at \$125 a month, the same salary as last year. The committee received the formal resignation of Miss Holton as supervisor of the primary department, but there was no action taken towards choosing her successor.

The new teachers are as follows:
Mrs. A. Robbins, nee Bartholomew, city; \$65; A. P. Elgren, city; \$60; Beatrice Wilkinson, city; \$45; A. J. Nelson, city; \$65; Miss Ellis R. Shipp, city; \$40; Miss Rose K. Thomas, city; \$45; Miss Alice Mahoney, city; \$60; Miss Edith Fern, city; \$45; Joseph Hughes, Spanish Fork, \$65; Miss Ida Combs, Payson, \$65; Phares Dunyon, Tooele, \$65; Miss Lizzie Barnett, Payson, \$60; Miss Ruby Knowlton, Kayville, \$60; G. P. Hickman, Provo, \$65; Miss Edith Herman, city; \$30; Miss Catherine McDonald, city; \$30.

There was a unanimous decision on the part of the committee to employ Mrs. William C. Jennings as teacher of modern languages in the high school and Clarence Crandall of the Ogden high school as teacher of biology in the high school here. The salaries will be fixed later.

Free normal scholarships in the normal department of the University were granted to the following: Jennie Groesbeck, Carrie Dunyon, Binda Hamlin, Lila Green, Sylvia Pearl McAllister, Francis E. Meier, Emma A. Christensen. There is still one scholarship open.

The committee authorized the purchase of \$20 worth of chemicals for the high school laboratory.

MRS. WATSON EVICTED.

Unpleasant Duty Performed by Two
Deputy Sheriffs.

To Deputy Sheriffs Cunnock and Ed. Naylor fell the unpleasant task of evicting Mrs. Helen Watson from the home at 21 South Fifth West street. Shortly before his death Mrs. Watson's step-father, James Chatfield, bequeathed the property to the Church, and it is now owned by the Fifteenth Ward Relief society. Mrs. Watson's mother, Chatfield's widow, according to the terms of the deed, was to have a life estate in the property, but when she died some two years ago the daughter continued to live at the old homestead, and last fall suit to recover possession of the premises was brought. Mrs. Watson set up as a defense that undue influence had been brought to bear on her step-father just before his death when he signed the deed conveying the property to the Church, but the testimony at the trial failed to substantiate her claims. She refused to obey the order of court to vacate the premises, and had to be actually carried from the house after the officers had removed all her belongings.

FIGPRUNE Cereal

Requires less
sugar than tea,
coffee, or any other cereal
coffee, the wholesome fruit
sugar contained in figs and
prunes largely supplying
this need.

It is the verdict of every
housewife that FIGPRUNE
is the most economical and
nutritious of any cereal
coffee.

Boil from 5 to 10 minutes only.

MINERS ARE AGAIN WITHOUT A HOME

George Bates Refused to Accept
Harry Joseph's Proposal.

WANTS A PHILANTHROPIST.

Luckless Parkies Are Again Alone in
the World! Yes, "All Alone!"
—Threaten Things.

T's all off. Just as the way cleared and prosperity loomed up ahead, the old horse balked and there was "nuthin' in doin'." That is the outline of today's chapter of "The Trials of a Homeless Club, or Will It?" George Bates has been the leading role, the horse, and he does the balking stunt with ease and grace; also with more assurance than is manifested by balky horses with refined and delicate manners.

The tragedy had its performance last evening in the D. F. Walker building, when the league magnates met in special session to straighten out the affairs of the Park City club. Everything was arranged before the meeting as to what was to be done, and it was expected that when the miners came forth from the conference they would come as a new team, with plenty of capital support in the way of filthy lucre. But not so. The gallant Parkies refused to have anyone take charge of their affairs on a business basis, which was what Angel Joseph wanted to do. They were after a philanthropist with a big and glowing heart, who would, with great ease and generosity, proceed directly to make Carnegie look like the bottom of a percentage column.

Bates asked all this, but didn't get it. He still has the franchise, however; still has it tied up in his little grip with a sprig of rosemary—"That's for remembrance."

When the matter was called up for consideration by the league last night, Joseph stated his proposition. In the first place, the Parkies were to assume the indebtedness of the club, as was quite natural; further, he would pay a salary list of \$300 a month, no more. He wanted the forfeit money of the club to remain in the league treasury, and to have the paraphernalia of the club turned over to him. Bates got in his clever little talk on all these things. The forfeit money must be cut up among the players, he asserted, and bigger salaries had to be paid. With the franchise locked tight within his breast, Bates held out stubbornly against any adjustment of the affairs of the club. The meeting adjourned without anything being done. To all intents and purposes, the club is no better off than it was before.

But all the players who have worn miners' suits this season do not think as does George Bates, and do not sanction the action which he took last night. Bates claims to have authority from the players to hold the franchise until a backer shall have been secured, who will pay off all the back salaries. Two or three members of the club asserted that no such authority has ever been given, and there the matter rests. But there is to be more to it. George Bates intends to make it a continued story. As his wires are now laid, the games which Park City will play from now on will be worse than the hippodrome in the rottenest barn-storming, one-ringed country circus that ever walked from hamlet to hamlet. Kids of tender years and anything but saline openenities will be run in, and everything will be done by George Bates to put baseball, as he himself expressed it, "On de bum." After this has been done, George Bates will take Tommy Cope

by the finger and lead him from the state. It may be well to say here that there is likely to be considerable opposition from some members of the club to the tactics pursued by Bates. As the famous public well knows, there are a few members of the Park City ball team who stand for everything that is clean and manly in the game. Walter Seare is one of these, and Pen degraft is another. They will not stand with Bates in his effort to kill the sport, and as soon as anything along that line is attempted, they will withdraw. Bates can have his little hip, podrome then, for a few days, but it cannot last for longer. The public has been warned, and it will not attend games with which George Bates is connected. There will be no money forthcoming, as a result, and that will mean that the franchise will have to be given up. When Lagoon goes to Park City Sunday, the Miners will have to guarantee expenses to the Bamberger crowd. If they fail to make good on this, they will have to forfeit their franchise. Then they can't do a very great deal toward putting baseball "on de bum."

NEW RACE PROGRAM.

Baby Gibson Makes His Initial Appearance Tomorrow Night.

The Salt Palace races were again called off last night, and the program which had been arranged for that time will be shelved. The feature of tomorrow night's exhibition will be "Baby" Gibson's initial appearance, which ought to draw out a big crowd. The plucky rider comes here with a gilt edged record, and is reputed to be one of the best men at following pace in the country today. Tomorrow night he will ride a two mile motor-paced exhibition event, and his unique position on the wheel is bound to draw forth applause. The other events will be as follows:

Unlimited pursuit race between Eddie Smith and team composed of Leo Bowlers and Hermans.

Three-eighths mile open amateur.

Unlimited tandem pursuit race, professional, four teams.

Half mile open professional.

Sporting Notes.

John Chapman left for Butte on the 10:50 train last night, and his face will not be seen here any more this season. The fifteen-mile race between him and Turville has been called off entirely.

"Whitey" Croxall, manager of the Salt Palace, is after the wings of the Cal's park vandevillians. He wants a Sunday game in the near future, and will hang up a purse of \$50. The second team, which he has organized would also like to play any nine in the state under seventeen years of age.

"Dummy" Rowan of this city fought Jack Lanties of Butte at Anandus last night and went out after twenty rounds of the hardest kind of fighting. "Dummy" is a stayer and those who have seen him fight here know that Lafontise must have kno hammered him all over the ring to get him to quit in twenty rounds.

It is reported that Johnnie Green has been holding clandestine flirtations with the Lagoon aggregation. But he won't play with that bunch if Sharley Griffin has anything to say about it, and Charley usually does make his side count for something. Money and ticket are lying in Cheyenne waiting for Green and will continue to stay there all season unless that flirtatious youth takes them out and comes down to pay with Salt Lake.

The White Wings and the Macabees will leave with tomorrow morning at 11 o'clock on Mr. Walker's pasture. As the day belongs to the Macabees, there will doubtless be a big crowd out and the White Wings won't be too stringent in the matter of scoring. The lodge men will line up as follows: Wood, first base; Smith, catcher; Potts, third base; Ostler (captain), second base; Martin, shortstop; Donkin, center field; Gunn, left field; Garland, right field; Papworth, Conklin, pitchers.

SENSATIONAL MILE.

Dan Patch Won First Heat of 2.15
Pace in 2.07 1-2.

Detroit, Mich., July 11.—Dan Patch made a sensational mile in the 2:15 pace at the Windsor Oct., driving park yesterday, winning the first heat in 2:07 1-2.

2:15 class pace—Dan Patch won in three straight. Winifred Stratton, Captain Bruno also started; Meda Medon, Silver Huo, Ferrum distanced. Time—2:07 1-2, 2:10, 2:09.

2:30 class trot—Betsey Ross won three straight heats. Zarco, The King, Ruth Adelaide, Toledo Bee, Monte, Opera Fan, Topsy and Eddie W. also started. Time—2:19 1-2, 2:20 1-2, 2:20 1-2, 2:20 1-2, 2:20 1-2.

2:30 pace—White Horse won three straight heats. Sidney Pointer, Goshen Jim, Ray Direct and Daisy J. also started. Time—2:09 1-2, 2:12, 2:11, 2:11 1-2.

HALF WAY ROUND.

International Sailing Race Over Semi-Circumference of Globe.

New York, July 11.—An international sailing race half way around the world will start from this city the first week in August. The racing ships are the Acme and the Brilliant. The Acme was built in Maine and flies the Stars and Stripes. The Brilliant was launched a few months ago at Glasgow. These vessels are the latest additions to the big sailing fleet of the Standard Oil company. They are leading at Bayonne, N. J., for Yokohama, Japan, and their sailing dates are almost identical. The two ships will follow the same course, reaching Yokohama by way of the China sea.

It is natural that there should be a race under the circumstances. The officials of the companies proposed a few days ago and found the captains more than willing. The Acme has never sailed a voyage before. She was towed down the coast from the Bath ship yards a few weeks ago. She registers 2,967 tons, has four masts, thirty-six sails and carries a crew of thirty-three men.

The Brilliant was launched in April and made a fast voyage across the Atlantic. She is somewhat larger than the Acme. She registers 3,600 tons. She is fitted to carry water ballast.

Troubles of a Minister.

To benefit others Rev. J. T. W. Vernon, of Hartwell, Ga., writes: "For a long time I had a running sore on my leg. I tried many remedies without benefit, until I used a bottle of Electric Bitters and a box of Bucklen's Arnica Salve, which cured me sound and well." Sore, Eruptions, Boils, Eczema, Tetter, Salt Rheum show impure blood. Thousands have found in Electric Bitters a grand blood purifier that absolutely cures these troubles. Satisfaction is guaranteed or money refunded by Z. C. M. I. Drug Dept. Large bottles only 50c.

Children often cry, not from pain, but from hunger, although fed abundantly. The trouble arises from indigestion; their food is not assimilated, but devoured by worms. A few doses of WHITE'S CREAM VERMIFUGE will destroy the worms, when the children will begin to thrive at once. Price, 25 cents. Z. C. M. I.

BANK STATIONERY.

And printing specially attended to at the Deseret News Office. Estimates promptly furnished. Rush orders a specialty.

Scrofula

Scrofula is an unwelcome legacy, but one which the children of blood poisoned parentage must accept, with all its humiliating consequences. It is an inheritance that makes one poorer; that brings wretchedness and disease instead of health and riches, for the child whose ancestral blood is tainted with Scrofula or the loathsome virus of Contagious Blood Poison is unfitted for the arduous duties of life so long as any of the transmitted poison remains in its veins. Scrofula manifests itself in various forms; swollen glands about the neck and throat, catarrh of the head, weak eyes, hip bone disease, white swelling and offensive sores and abscesses are familiar symptoms, attended usually with loss of strength, poor digestion and pale or bloodless complexion. The skin is sometimes most dreadfully affected, eruptions breaking out on all parts of the body. Scrofula destroys bone, tissue and flesh; no part of the human system escapes its withering, denuding touch.

When nineteen years old, and about one year after the birth of my first child, the glands on the left side of my neck began to swell. Four of the places were lanced and became open running sores; risings came under my left arm, and the discharge was simply awful. The doctors said I had the worst case of Scrofula they had ever seen. I took iodide of potassium, but this never had the other drugs given for this disease brought relief. When the physicians advised me to have the glands removed, I decided to try S. S. S. A few bottles cured me completely; no signs of the terrible disease are left.

MRS. RICHARD WASSON,
Golden Corners, Ohio.

Purity to the profoundly poisoned blood, and the rich, strong blood that is carried to the swollen and diseased glands absorbs and destroys the tuberculous deposits, and the painful, disgusting sores and other evidences of Scrofula disappear.

S. S. S. should be begun immediately upon the appearance of the first symptoms, or where there is a known predisposition to Scrofula. Our medical department will be found of great help to those who are struggling with this wasting disease of heredity or any other blood trouble, and we invite you to write us. Should you or any member of your family need advice, our physicians will cheerfully give the information you desire, for which we make no charge. Book on Blood and Skin Diseases free.
